

I have been listening to KLOVE for several years. In the recent past my daughter started listening during a very difficult time in her life. KLOVE helped her get through it and we are financial supporters. I enjoy listening to KLOVE and don't have to worry about my grandson listening when he is in the car with me. If KLOVE were to be replaced by LPFM many would lose a safe radio station to listen to. I believe that KLOVE serves a very important public interest role in our community. Please don't take it away.
